DIGITAL SCCI ENGINEERING / ARTIFICIAL SIGNALS / MONITORING AND COMPANION

Dedicated raw current/voltage ADC and wired processed-feature companion. Endpoint charge ADCs remain separate.

Title: ATO S4 / Existing package and host endpoints

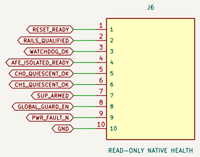

Size: A2	Date: 2026-10-14	**Rev: 0.1**
KiCad E.D.A. 10.0.6		Id: 1/8

DIGITAL SCCI ENGINEERING / ARTIFICIAL SIGNALS / MONITORING AND COMPANION

Dedicated raw current/voltage ADC and wired processed-feature companion. Endpoint charge ADCs remain separate.

All labels are native electrical connections. Digital artificial-load interface; no clinical, chronic or body-radio qualification.

Hardware permissions and terminal guards remain independent of transport. Loss of data rejects the observation.

Native design: target firmware and PCB verification follow

Project ATO

Title: ATO S4 / Dedicated eight-channel raw conversion

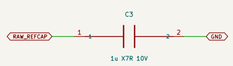

Size: A2	Date: 2026-10-14	**Rev: 0.1**
KiCad E.D.A. 10.0.6		Id: 3/8

DIGITAL SCCI ENGINEERING / ARTIFICIAL SIGNALS / MONITORING AND COMPANION

Dedicated raw current/voltage ADC and wired processed-feature companion. Endpoint charge ADCs remain separate.

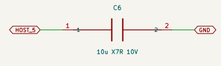

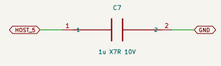

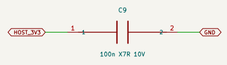

All labels are native electrical connections. Digital artificial-load interface: no clinical, chronic or body-radio qualification.

Hardware permissions and terminal guards remain independent of transport. Loss of data rejects the observation.

Native design; target firmware and PCB verification follow
